## SOtM will unveil the sMS-200ultra !

**SOtM will debut a new generation mini music server, sMS-200ultra for the first time in Munich, the world first demonstration will be held during the show hours, please come and experience its remarkable performance at **Hall2, E07**.**

Last year, we announced the sMS-200 for the first time in Munich, and this year, the sMS-200ultra would be the star. There are also other new products demoed together. But most likely, SOtM will focus on displaying the products in this year and would take more time to run consulting with world-wide visitors.

They look like the triplets. From left, sMS-200ultra, tX-USUltra and sPS-500.

The tX-USUltra is now available, and the sMS-200ultra and sPS-500 will be following up soon after High End show.

SOtM's all products including the forthcoming products prove and will certainly tell what the real value of audio products should be.

**SOtM will become the most important partner in your music life.**
