ickStream

ickStream

The screenshot shows the Logitech Media Server web interface. At the top, there is a navigation bar with tabs: Basic Settings, Player, My Music, mysqueezebox.com, Interface, Plugins, Advanced, and Information. Below this is a sub-tab for 'ickStream'. A message at the top left says 'Changes have been saved.' The settings are as follows:

- Sort albums for artist: **i** by title
- Background daemon port: **i** 9006
- SSL peer verification: **i** Enabled
- Proxied streaming for hires services: **i** Enabled
- ickStream Music Platform Service: **i** [Login to ickStream Music Platform](#) [Refresh](#)

Below the ickStream service settings, there is a note: 'If you have just logged in successfully, click "Refresh" button to'. At the bottom, there are links for 'Terms of use' (Logitech Media Server, SqueezeLite) and 'Privacy Policy'.

This screenshot shows the same Logitech Media Server interface, but the ickStream service is now logged in. The settings are:

- Sort albums for artist: **i** by title
- Background daemon port: **i** 9006
- SSL peer verification: **i** Enabled
- Proxied streaming for hires services: **i** Enabled
- ickStream Music Platform Service: **i** [Logged in as: sotm.dev@gmail.com](#) [Refresh](#) [Logout](#)

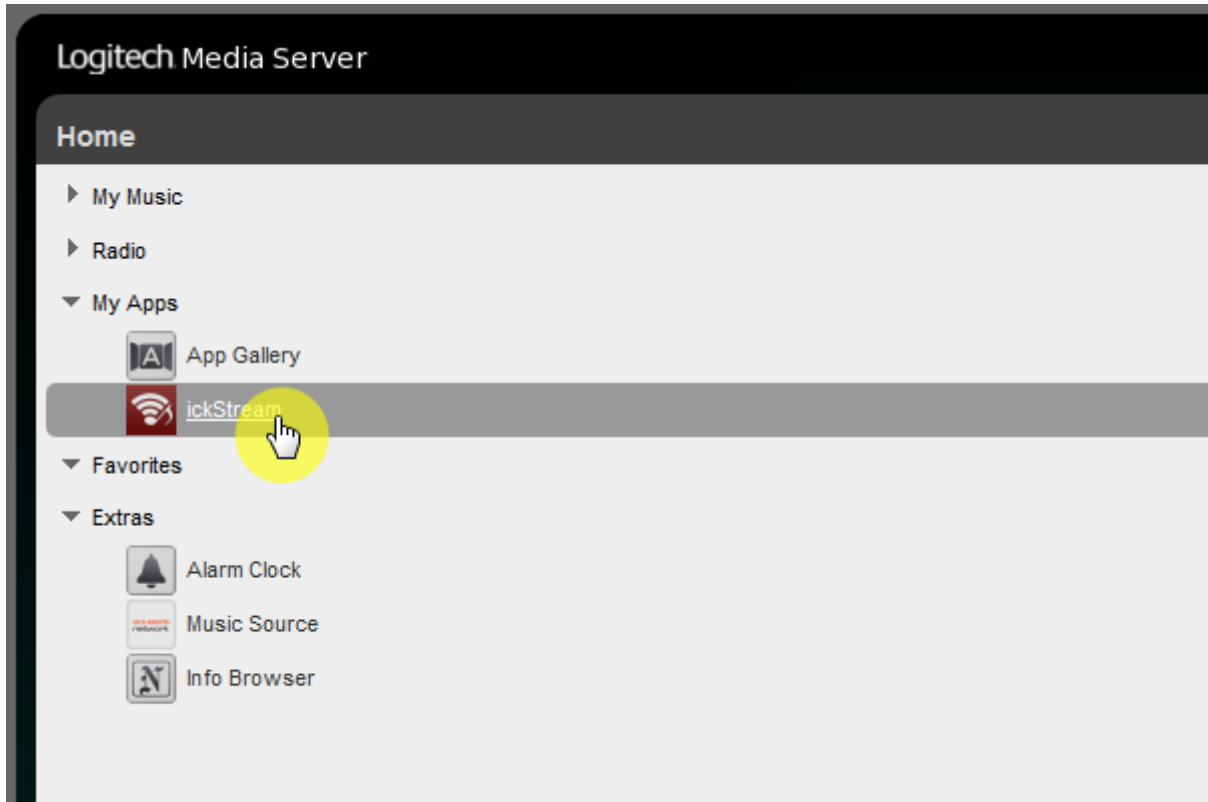

Below the ickStream service settings, there is a link: '[Add or remove services from your ickStream Music Platform account](#)'. Other settings include:

- Remotely controllable players: **i** sMS-200-USB [Refresh](#)
- Registered players: **i** None of the connected Squeezebox players are registered on ickStream [Refresh](#) [Re-register all players](#)
- Terms of use: **i** [Logitech Media Server, SqueezeLite](#)
- Privacy Policy: **i** [Privacy Policy](#)
